# Day Program

# Program Client Testimonials

"Green Care Farms was an incredible experience for our Dad. He participated with a sense of **pride** and **purpose** that not only met his needs, but supported the community he lives in.

Rebekah and staff always allowed Dad to exercise his independence in a beautifully safe environment. This program gave our Mom (Dad's primary caregiver) much needed **respite**. We are so very thankful for this wonderful program that Rebekah founded to support individuals living with Dementia and their families." - Kathleen T (daughter of GCF member)

"I participated in the Day Program and had a very enjoyable experience. It provided an opportunity to meet new friends and learn about gardening. The best part was harvesting the crops and eating the fresh produce that we had grown and picked. The lunches were very tasty. I look forward to enjoying the experience again."  
- Mike P (GCF member)

# Sensory Garden

Stimulates all 5 senses

# Education & Consulting

Inform

## Our Vision:

“A care farm for people with dementia in every community in Canada.”

Inspire

- We are expanding our model to include consulting and providing learning opportunities.
- We have delivered 2 courses on **‘How to Start a Care Farm’**
- Training and mentorship to aspiring care farmers.

Equip

# Community Days & Events

## Harvest Dinner

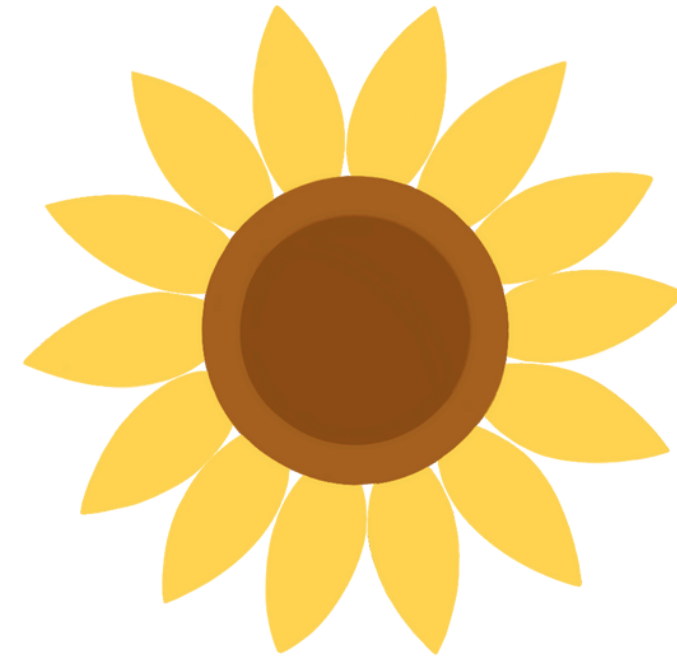

- Annual event for people with dementia, caregivers, volunteers, and other community members to connect.
- Public education on care farming in Canada.

## Community Days

- Multiple Community Days throughout the season.
- Volunteers prepare the Sensory Garden before program starts and help maintain throughout the season.
